

Thuraya Satsleeve

Bring satellite communications to your smartphone

Thuraya SatSleeve is the smartest, fastest and simplest way to transform your smartphone into a satellite phone. Only slightly larger than the smartphone itself, the compact adaptor allows you to turn your smartphone into a satellite phone, and enjoy voice and data beyond the coverage of traditional terrestrial networks.

Corporate and NGO users, frequent travelers or adventurous explorers, traveling in remote locations can enjoy the use of their own smartphone, without having to carry an extra satphone or bulky equipment.

Choose the best SatSleeve for your needs

Thuraya SatSleeve is available for iPhone and Android.

iPhone: the standard package comes with the adaptor for the iPhone 5 while an adaptor for the iPhone 4/4S is available separately.

Android: The standard package comes with an adaptor for Samsung Galaxy S4 while an adaptor for Samsung Galaxy 3 is available separately.

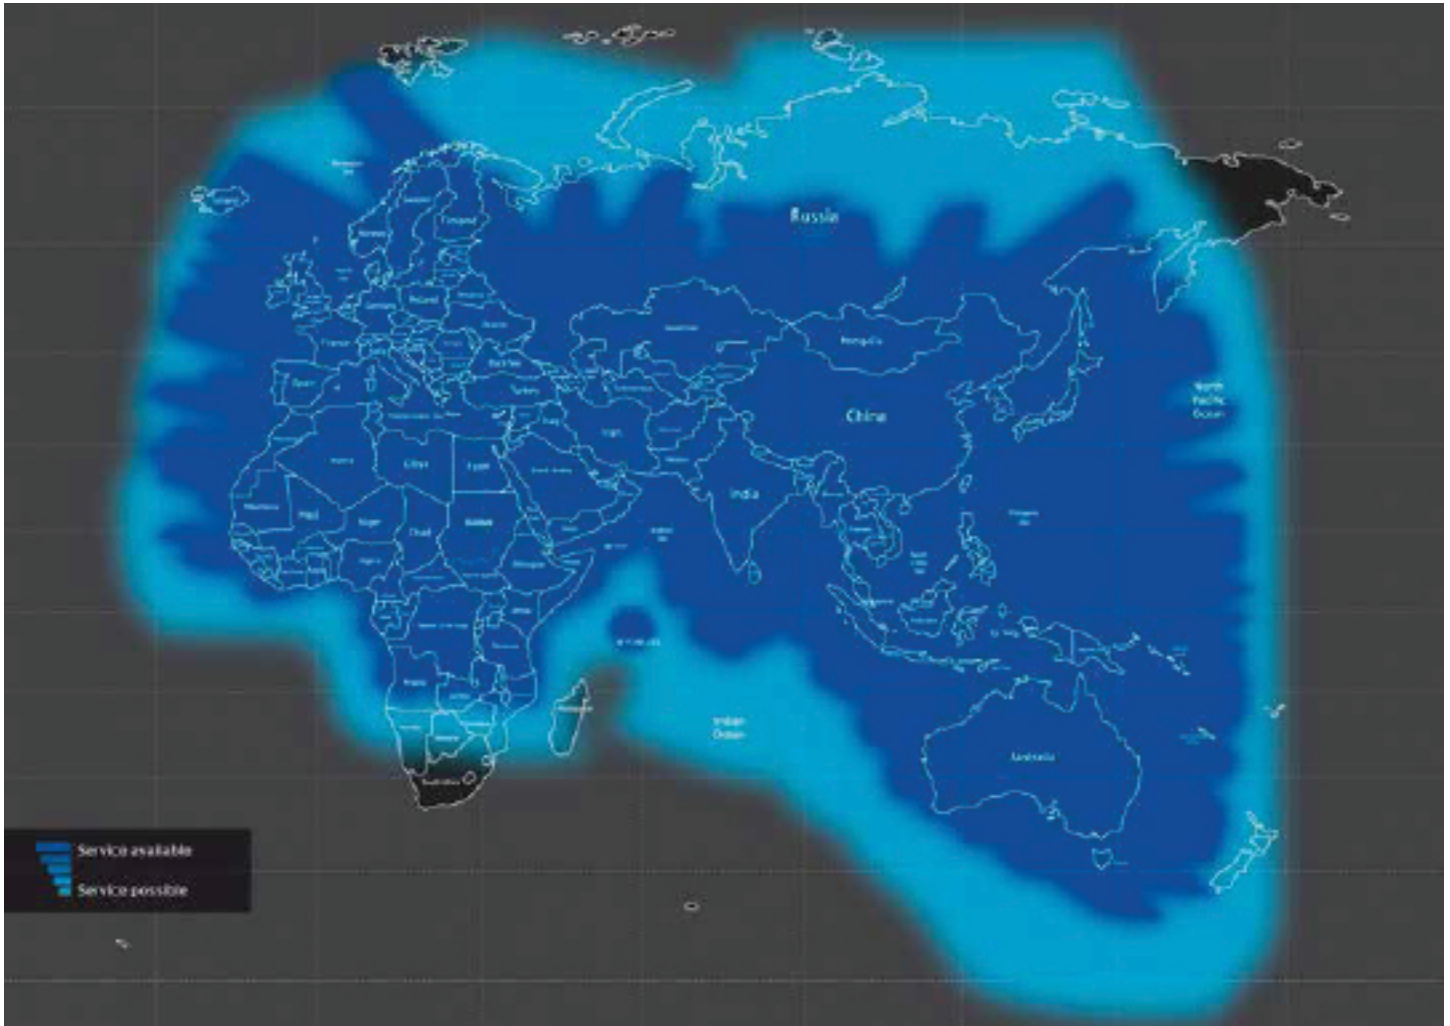

Thuraya Satsleeve Features

- **Coverage:** keep in touch in remote areas thanks to Thuraya's satellite connectivity
- **Large range of compatible smartphones:** iPhone 4/4S and 5/5S and Samsung Galaxy S3 and S4
- **User-friendliness:** simply download the free SatSleeve application from the App Store or Google Play, dock your smartphone into the SatSleeve and enjoy phone calls and SMS, and access to email, instant messaging and social media in satellite mode
- **Reliability:** always on-connection with automatic switching from GSM to satellite mode over Thuraya's network
- **Safety features:** make a phone call to one predefined number with the Emergency Call button
- **Powerful:** extend the battery life of your smartphone with the provided built-in battery pack (for SatSleeve iPhone only)
- **Flexibility:** integrate your smartphone address book for satellite calls and text messages
- **Cost-effective Fixed2Mobile calling:** using our innovative solution COMSAT Direct Dial, place calls from your iPhone to any mobile satellite terminal at a price more affordable than standard landline charges
